### **NGVAmerica Launches New and Expanded Website**

WASHINGTON, D.C. – NGVAmerica is proud to announce the launch of a new website with improved and expanded features. NGVAmerica.org has been redesigned to provide users easy access to the most in-depth and up-to-date information on the natural gas vehicle industry.

The homepage features a navigation bar and drop-down menu with a new Stations section that provides current station counts and analysis, as well as detailed pages covering CNG and LNG station design, construction and economics. In addition, the Vehicles section now contains content covering the consumer, fleet and high-horsepower market segments.

NGVAmerica members continue to enjoy a number of exclusive online benefits, including access to the NGV Policy Portal, station and infrastructure analysis, and the new NGVAmerica Jobs Board. The NGVAmerica Jobs Board, which is featured as a button on the homepage, allows members to post open positions and receive exposure on one of the most highly ranked NGV websites online. NGVAmerica members are also featured in the online Business Directory, the only comprehensive company directory for the NGV industry.

“The new NGVAmerica website provides our members, as well as the general public, access to the most comprehensive and up-to-date information available,” said Rich Kolodziej, President of NGVAmerica, “Our website is an important way in which we continue to serve as the national voice of the NGV industry.”

#### **About NGVAmerica**

NGVAmerica is a national organization dedicated to the development of a growing, profitable, and sustainable market for vehicles powered by natural gas or biomethane. NGVAmerica represents more than 200 companies, environmental groups, and government organizations interested in the promotion and use of natural gas and biomethane as transportation fuels. Our member companies are those that produce, distribute, and market natural gas and biomethane across the country; manufacture and service natural gas vehicles, engines, and equipment; and operate fleets powered by clean-burning gaseous fuels. For more information about NGVAmerica, visit [www.ngvamerica.org](http://www.ngvamerica.org).
